To Whom It May Concern

Ref: Reference of Work for Barry White

I have worked with Barry for 5 years at Langham Hospitality Group. During this time, we worked together on a number of projects throughout Asia, China and the Middle East.

Barry was fully responsible for the market research, concept development, detail design development, FFE/ OSE compilation and pre-opening of the wellness facilities (spa, fitness, pools, recreation) at Langham Hospitality Group.

Barry is highly professional, knowledgeable and demonstrated a degree of creativity and innovation that was appreciated by all concerned in each of the respective projects we worked upon. Barry has a clear appreciation for design, whilst ensuring the project is developed with commercial success in mind.

Barry is a great team player, and communicates very well with owner, property management and specialist consultants.

I would highly recommend Barry to any company that would require the development of wellness facilities.

Please do not hesitate to contact me should you require any further information.

Kindest regards,

Anthony Lee
Vice President – Projects & System
